Concerning: New HVLP Sprayers (Painting Systems Ref. # 9499)

Instructions/Attach To:

Behind HVLP Tab

Date: ___07/07/00_____

Page: __1__ of __1__

Two new HVLP models are being introduced at Tractor Supply Company:

HV2011: This sprayer is exactly the same as the HV2002. In order to sell through the farm/ag channel, it was felt that different applications needed to be shown on the box than the woodworking projects shown on the HV2002 box. All parts, with the exception of the box label are exactly the same. This sku can be offered for sale to any retailer that has a largely agricultural customer base.

HV2511: This sprayer is exclusively for Tractor Supply Company. It is exactly the same as the HV2500, but it carries the Farmhand logo. As a Farmhand subbrand, it carries a 5 year warranty. The upper portion of the warranty sheet stating this is shown below. A complete warranty sheet is included with the literature package of the HV2511. All parts, with the exception of the labels, and the warranty sheet are exactly the same as the HV2500.

Campbell Hausfeld (Painting Systems) Limited Warranty for the HV2511 Farmhand HVLP

1. Duration: From the date of purchase by the original purchaser as follows for 5 years.

Please Note: the remainder of the warranty statement is unchanged from the standard Painting Systems statement.
