

Spray Gun for Every Project

The Campbell Hausfeld general-purpose spray gun (DH420000AV) changes from siphon to pressure-feed for use with a variety of materials, including latex, lacquer and enamel paint, stain and primer. A fluid control regulates the amount of material sprayed to help deliver great results. Convertible from non-bleeder to bleeder style for use with standard or tankless air compressors; also works with paint tanks and remote canisters for larger paint jobs.

Designed with you in mind

The DH420000AV is ideal for a variety of spray paint projects including automotive and furniture customization.

- **External Mix Cap**
